MINISTRY OF TOURISM, CULTURE AND SPORT

# Background & Overview

# TNS Growth Map

## Your business issues

- In February 2009, the Ontario Government issued a comprehensive report on the future of the tourism industry (Discovering Ontario). Among its recommendations were the goals of becoming one of the world's preferred destinations and doubling tourism receipts by 2020.
- The RTOs were established as one means of realizing these goals by establishing unique brands and tourism experiences and by more clearly defining Ontario's breadth of assets using a coordinated marketing approach.
- As one of Ontario's leading overnight pleasure travel destinations, and as one offering a unique and diverse set of experiences linked to nature, RTO12 has a significant role to play as part of this growth mandate.
- Localized domestic markets have been the primary source of tourism volume for RTO12, and it is anticipated that the localized focus of the marketing effort will be retained.
- Growth can be stimulated in a variety of ways:
  - Build on the behaviours of current core visitors;
  - Attract current non-visitors with aligned interests;
  - Innovate, renovate and package product to optimize growth potential among both current and prospective visitors;
  - Identify new segments and geographic markets for expansion.

# Perceptions

# Explorers' Edge Offer

## The Offer

- This Region offers endless opportunities for exploration and adventure. It is a special place where nature and civilization meet in an unparalleled landscape defined by water, rugged earth and sky. The resulting breadth of experiences is second to none whether one wishes to rest, rejuvenate, reenergize or meet new challenges.
- Nature is at the centre of the offer, but the brand's direction is about instilling appreciation of the diversity of experiences that exist within the Region and encouraging a desire to explore in all four seasons.

## Explorers' Edge's Strategic Assets

1. Algonquin and other parks
2. Resorts and spas
3. Culinary experiences
4. Outfitted outdoor adventures
5. Art galleries and studios
6. Georgian Bay Biosphere, shoreline and islands.
7. Fishing and hunting
8. Premier cottage country
9. Trails and biking
10. Golf and outdoor sports
11. Festivals & events
12. Towns and villages of interest
13. Lake cruises, boating and water activities
14. Equestrian centres and trails

# “Table Stakes” And Drivers Of Engagement

Perceptions of Explorers’ Edge among past visitors who do/do not plan to return

Regardless of whether they intend to return, visitors agree that **Explorers’ Edge** can deliver on these expectations...

Offers an authentic travel experience

Easy to get around from place to place once you are there

Great place to experience diverse cultures / ways of life

A place where I would feel safe and comfortable

Great place for enjoying outdoor activities

Impressive scenery and landscapes

**Loyalty**

**& Sustained Growth**

However sustained visitation hinges on going beyond the “table stakes”. Repeat visitors are far more likely than non-repeaters to believe...

Great for a vacation/getaway

A great place for having fun

Excites my curiosity

Interesting festivals and fairs

A unique place

Has popular attractions (man-made or natural)

Great place to rest and rejuvenate

Great place for a romantic holiday

Fits my personal lifestyle and pleasure travel needs

# Implications

# Growth Summary

## Growth insights

- The GTA and the wider Ontario market are key to the vitality of tourism to the Region. There is room for further growth within these markets.
- The Nearby US is at a more formative stage of development and will require long-term effort and investment to develop.
- The Quebec market is not particularly open or attuned to the Region. While some interest exists, it would likely be difficult to convert.

## Precise plans for growth

- The GTA and Ontario should remain the primary targets for travellers to the Region. RTO12 investments should be primarily directed here for the foreseeable future.
- This means attracting those who already have some familiarity with the core offer. Therefore...
  - Stimulate visitation by placing emphasis on what is new, different and unique.
  - Communicate **& package** product diversity to encourage new thinking about the Region and broader exploration of the offer.
  - Use consumer segments to target communications and packaging.
- For now, use a partnering approach in the US (with the OTMPC, etc). Independent investment of limited resource will not be fruitful.
- Focus should not be placed on Quebec.

# Growth Summary

## Growth insights

- The Region is highly rated for outdoor experiences, particularly those aligned with water-based activities in the context of rest and relaxation.
- It also has a reputation for uniqueness and authenticity that can be further leveraged.
- But it is not well recognized for the many strong assets it has beyond the outdoors:
  - Arts and culture;
  - Culinary;
  - Festivals and fairs.
- Cultural diversity and year-round opportunities are not fully appreciated.
- Exciting curiosity and establishing personal relevance are key to stimulating committed interest.

## Precise plans for growth

- Emotively, rest and relaxation should remain central to the offer.
- And, the outdoors and water should be core to the experience.
- However, to stimulate new growth, highlight complementary experiences such as festivals, fairs, arts and culinary. This will...
  - Elevate spending among loyalists.
  - Stimulate curiosity among potentials.
  - Support off-peak visitation.
- Highlight unique and specific aspects of the outdoors to achieve the same end:
  - Trails, touring, winter activities.
- Connect with consumers at an emotive level in marketing communications – move beyond just the products offered.
- Use digital channels to personalize messaging.

# Overlaying The Traveller Segmentation

# Segmentation Constructs

# 12 Unique Segments Were Identified

# Introducing The 12 Travel Segments

## Pampered Relaxers

This segment is defined by an orientation toward pampering and resort life experiences. This very often involves beach experiences, water and sun destinations in winter.

For this segment, vacations are a time to relax and re-energize often through high-end sophisticated activities.

## Sports Lovers

This group, skews more male, and is driven by a love of sports, either watching or participating. By the nature of their passion these people describe themselves as more active and energetic than most. In reality their sports are not necessarily extreme more in keeping with what is readily available, and more likely to be organized team sports and golf.

## Knowledge Seekers

Travellers in this segment are looking to appreciate and understand the places they visit. Their trips are typically about expanding their knowledge and stimulating their minds rather than resting and relaxing. They are driven by a desire to explore culture, history, architecture and natural landmarks and often focus on sight-seeing, museums, galleries and historical sites.

## Up & Coming Explorers

This is a youth-oriented group that is on its way up in the world. These travellers are emerging into a new life-stage, often characterized by greater affluence and new opportunities. Visible minorities and immigrants often fall into this segment. Travel is not about connecting with family or friends. While these people often want to be adventurous and energetic their travel experiences often start with what is nearby and typically with core tourist attractions. Ontario is popular with this group and visitation is typically very recent.

## Connected Explorers

This segment has a psychological need to take a break from the everyday and be exposed to new experiences and knowledge. They are committed to expanding their horizons through travel. Interestingly, the Internet and new technologies are key instruments in facilitating these travel interests & experiences. They research, book and share travel experiences through new technologies – before, during and after trips.

## Aces

Predominantly driven by a love of gaming and gambling, this segment loves casinos and the related ambiance that provides them with a sense of escape. For this group, the casino resort environment provides them with a sense of indulgence and escape as everything to have 'fun' is located close at hand.

# Introducing The 12 Travel Segments (cont'd)

## Outgoing Mature Couples

Skewing strongly toward seniors and those in retirement, these travellers are driven by a desire to maintain their vitality and connection with the world. They are not particularly adventurous, rather they want to maintain their vitality often by interacting with new people (travellers and locals alike). It is important to them to feel competent and vital.

## Family Memory Builders

This is a segment driven by families with children <18. They want a playful vacation that is centred around building family memories and strengthening the bonds. Activities such as theme parks allow the family to have fun and build these lasting memories.

## Mellow Vacationers

This segment wants to unwind on vacation, and relaxed and low key experiences are their preference. This group doesn't want itineraries or to do anything new or unusual. They want travel experiences that set them at ease. They aren't activity-oriented and often travel as a couple.

## Nature Lovers

This is a consumer segment attracted to outdoor experiences aligned to Ontario's quintessential parks & lakes offering. Camping and associated activities, e.g., hiking, canoeing, fishing are key interests for this group. The majority classify as "nature lovers". Activities align with the recreational aspects of the outdoors and not necessarily the extreme aspects of the outdoors, e.g., avid angling or hunting.

Not surprisingly, the travel style is basic with camping prevalent.

## Solitaires

This group of largely single people often travel alone. They are quiet and reserved people, whose travel experiences and budgets are often quite basic. While they often connect with acquaintances or family at the destinations they choose, they are introspective people. If they gravitate to any forms of activity, they tend to be those that can be enjoyed in isolation and align with inward thinking (museum, galleries).

## Youth Socializers

This is a typical youth segment driven by a love of socializing with friends on vacations, often on a limited budget.

This is a group that wants to have fun and unwind on vacation and this is best achieved by spending time in a group and sharing experiences with others.

# Prioritizing the Segments

# Suggested Criteria For Prioritization

**1. Setting Priorities to Support the Current Business.** Identifying those segments that contribute most strongly to your Region's tourism industry today.

- Which segments is the region attracting at above-average numbers – delivering tourists (as opposed to dollars)?
- Which segments are demonstrating a behavioural preference for the Region (contributing higher share among visitors to the Region than the segment represents among total travellers)?
- Which segments are spending in the region at above their average rate?

**2. Identifying the Growth Opportunity.** Identifying segments offering the most potential to grow tourism to the Region.

- Alignment of the segment's travel interests and activities with the Region's existing and potential future product offering.
- Level of interest in the region (will the segment be more or less difficult to attract?).
- Dollars available for tourism – what is the segment's share of total travel spending?
- Single trip value – how much is typically spent per trip within the segment?

# Implications

# Growth Summary

## Growth insights

- As one of Ontario's premier outdoor destinations, RTO 12 has the ability to attract a broad spectrum of travellers.
- While Nature Lovers are at the core of attraction, their spend levels tend to be muted.
- The appeal of the outdoors and nature cuts across multiple segments exhibiting higher spend levels.
- In addition, Pampered Relaxers and Sports Lovers represent an middle-age cohort with premium spend levels and some affinity to the Region beyond nature *per se*.

## Precise plans for growth

- Place the unique natural environment at the core of the offer. But surround it with complementary activities that extend the experience and further differentiate the Region.
- Attract high-end spenders (epitomized by Pampered Relaxers) by promoting and/or further investing in premium accommodation, services and activities - shopping, resorts, spas, access to "the outdoors" in comfort.
- Impress Nature Lovers with the wide range of Park experiences in the Region that are easily accessed within reasonable budgets, yet provide exposure to an incredible diversity of environments.

# Growth Summary

## Growth insights

- Connected Explorers are under-represented among current visitors, but show strong potential to drive future growth.
- Up and Coming Explorers exhibit strong interest in the Region.
- Both Explorer segments represent a more youthful traveller with relatively high spend levels.
- The outdoors resonates with these groups, but so too does a host of other experiences.

## Precise plans for growth

- The Explorer segments provide a target for a youth strategy that emphasizes:
  - The Region's iconic outdoor attractions;
  - The active outdoors;
  - A sense of adventure that can be exercised without foregoing rest and relaxation.
- For Connected Explorers it will also be important to emphasize the range of diverse experiences to enjoy on a single trip, extending beyond nature.
  - Emphasize the arts and culture activities available, including culinary, music and festivals.
  - Showcase a truly unique natural **and social** setting that offers experiences during the day and in the evening and across all seasons.

# Growth Summary

## Growth insights

- Digital and mobile connectivity plays a key role in reaching the Explorer groups as does vertical travel media.
- Up and Coming Explorers provide some targeting cues for reaching interested ethnic and immigrant groups.

## Precise plans for growth

- Use the Explorer segments to deepen the digital marketing strategy – online itineraries, planning tools, supports for mobile real-time decision-making.
- These groups should represent the target if vertical travel media are used.
- Develop marketing materials specifically aimed at the youthful ethnic traveller.
  - This is relevant to Up and Coming Explorers and to the GTA target market
  - The materials must be culturally sensitive beyond just language, and facilitate engagement with activities that may be new to this group (education, guided activities, etc.).

# Growth Summary

## Growth insights

- Connected Explorers are under-represented within current visitors but show strong potential to drive future growth.

## Precise plans for growth

- Drive growth within this segment through demonstrating the breadth of the offer. Emphasize the number of activities and experiences available within a single trip. Combine day and night activities in communications to emphasize the fullness of the experience.
- Emphasize arts and culture activities available, including culinary, music and festivals to promote the unique RTO 12 experience.
- Where possible, use social media and digital to enhance the travelling experience; before, during and after the trip.
